SUMMARY

Passionate Machine Learning and Data Science enthusiast with experience in building and deploying machine learning models and natural language processing solutions. Adept at utilizing tools such as Python, TensorFlow, Keras, and MongoDB to drive impactful results in predictive modeling, classification, and data analysis. Strong foundation in statistical analysis, feature engineering, and model evaluation, with a focus on delivering data-driven solutions. Seeking opportunities to apply my skills in AI, machine learning, and data science to solve real-world problems.

EDUCATIONAL QUALIFICATIONS:

Qualification	College/School	Year	Percentage
B.E(AI&DS)	KLE College of Engineering and Technology, Chikodi.	2022-2026	8.02 CGPA
PUC(Science)	KLE INDEPENDENT PU COLLAGE ,CHIKODI	2020-2022	64.3%
High School	GELEYAR BALAG SHIKSHANA SAMITHI , EXAMBA	2020	86.4%

PROJECTS UNDERTAKEN:

1. MOVIE GENRE PREDICTION

Developed a machine learning model to predict movie genres based on plot summaries, using natural language processing techniques (TF-IDF, word embeddings) and classification algorithms such as Naive Bayes, Logistic Regression, and SVM.

2. SPAM MAIL DETECTION

Built a spam detection model using Logistic Regression and TF-IDF vectorization to classify emails as spam or not. Achieved significant accuracy improvement through feature engineering and hyperparameter tuning.

3. ONLINE VOTING MANAGEMENT SYSTEM USING FULL-STACK

This project is a comprehensive **Full-Stack Online Voting Management System** designed to facilitate secure, transparent, and efficient elections for organizations, institutions, or small-scale public polls. Leveraging a full-stack architecture, it ensures a robust and seamless experience across all stages

4. REAL TIME IMAGE ANIMETION USING DEEP LEARNING

Built an model using GANS and VAES to animate images in different formats used for animation
Used sketch book ,90s anime, cyberpunk anime , chibi anime by training machine learning tools .

INTERNSHIP:

- **Data Analytics and Visualization Intern, Virtual Internship** March 2024 - May 2024
- **Machine Learning Intern At CODESOFT.**
- Ongoing internship as “Softwear Intern” at “KodNest Technologies Pvt. Ltd.”

TECHNICAL SKILLS:

- **Programming Languages:** Basics of Python, C, HTML5, PHP
- **Machine learning & AI:** Tensorflow, Keras, Pytorch
- **Data Science:** Data cleaning Processing, Predictive Model
- **Data Visualization :** Power BI, Seaborn, Matplotlib
- **Natural Language Processing :** Word embedding , Text classification
- **Databases:** SQL, Basics Of MongoDB
- **Cloud Services:** AWS, Google Cloud Services
- **Other Tools:** GIT, Basics Of DEVops

CO-CURRICULAR ACTIVITIES:

- Held the position of **President** for the **AI-QUESTA** student association for a duration of **two years**.
- Served service volunteer conducted FACULTY DEVELOPMENT PROGRAM at KLECET, CHIKKODI
- Served service As a volunteer conducted PRAXIS-2K24 at KLECET, CHIKKODI
- Participated in and won **First Prize** at “**Bug Buster,**” an event organized by **ADVITIYA-2K24, KLEIT Hubballi**.
- Won **Second Prize** in the “**PosterNova**” competition, organized by **AI-QUESTA**, Chikodi.
- Participated in “PAPER PRESENTATION COMPETITION” Conducted as a part of “Praxis 2K24” (KLECET, Chikodi).

INTERPERSONAL SKILLS:

- Teamwork and Patience.
- Responsibility.
- Time management.
- **Languages Known:** English, Marathi, Hindi, Kannada
- **Interests & Hobbies:** playing volleyball, cooking, swimming, running

DECLARATION:

I hereby declare that all the information provided above is true to the best of my knowledge and belief. Date:

Place: NANADI (Belgavi)

Yours Faithfully
SUMIT BADAKE
